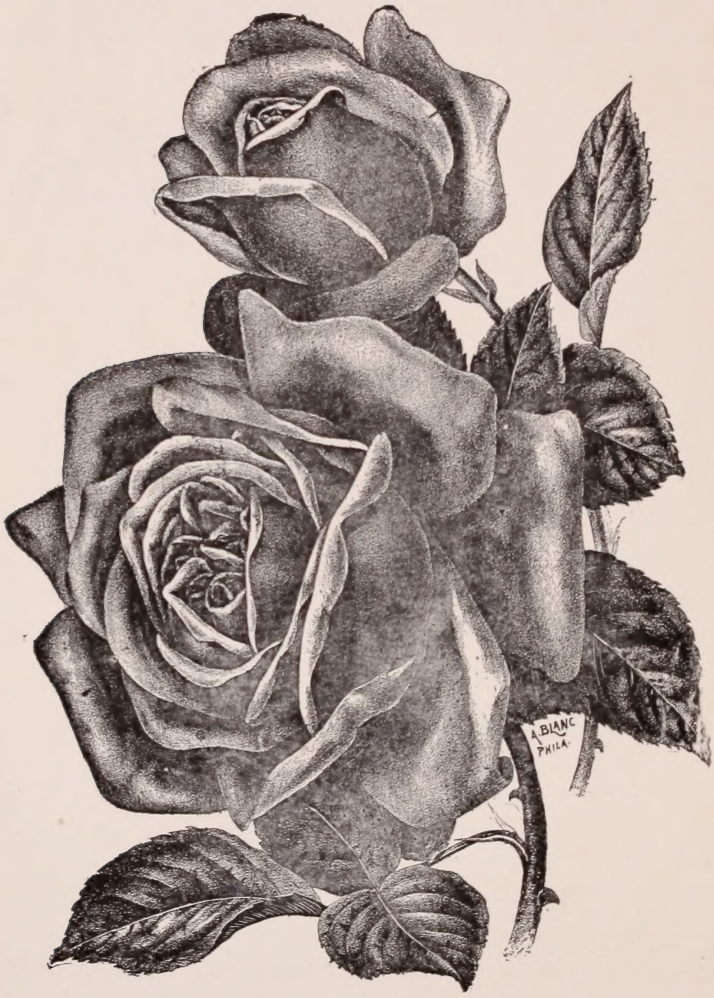
JOHN HENDERSON CO.

ROSE GROWERS

FLUSHING, L.I.

ROSES A SPECIALTY

Duchess of Albany.



This magnificent New Hybrid Tea Rose is undoubtedly one of the finest of recent introductions.

To Our Patrons and Trade Generally.

In presenting our Trade Catalogue for this season, we most respectfully return thanks for your liberal patronage, and trust by our endeavors to supply the BEST we shall merit a continuance of the same.

Respectfully,

JOHN HENDERSON CO.

THE BRIDE. Best white	5 50	50 00	1 25	9 00
DUCHESS OF ALBANY. A sport from La France, and seems to be decidedly superior to it. It is remarkably vigorous and a constant and profuse bloomer	8 00			

METEOR.—A rose of great merit, color of a deep rich crimson, equally as fine as Jacqueminot; very double with petals slightly recurved. 2½ inch pots $10 per 100.

NEW ROSES.

The new climbing PERLE DES JARDIN is all we claimed it was and is undoubtedly the best yellow climbing rose to-day. Price, 2½ inch pots, 50 cents each; $4 per dozen, and $30 per 100.

WABAN.—This, without doubt, is the most valuable rose that has been introduced in several years for the commercial florist. It can best be described as a RED MERMET.

Plants will be ready for distribution on April 15th, 1891. Orders, booked now, will be filled in strict rotation.

PRICES TO THE TRADE, EXTRA GOOD PLANTS:

We offer well grown plants of the above general sorts, ready for delivery March 1st, at $5 per 100

A NEW CLIMBING ROSE.

Few roses have as firm a hold in popular favor, and are so highly prized by the professional and amateur rose-grower alike as the *Perles des Jardins*. It is not only admirably adapted for forcing, but thrives very well in the open air, blooming freely in either case. Its large, full, well-formed, canary-yellow flowers, borne on stiff stems, make this variety especially desirable for bouquets and artistic floral decorations, while the dark and glaucous foliage of the plant furnishes an excellent setting for the fragrant, delicately-hued blossoms. It will no doubt be as much a surprise to our readers as it has been to us to learn that this stately rose has recently evolved itself into a form which while retaining all the excellent qualities of its progenitors has assumed climbing habit. This has originated in one of the rose houses of the John Henderson Co., at Flushing, Long Island, and the original plant as growing there is accurately depicted in our engraving. Its lateral growth is eighteen feet in each direction from the stem, and we are informed that the plant has carried at one time over one thousand buds and flowers. The climbing habit of this sport was so firmly fixed from the start that not one of all the cuttings taken from it have reverted to the original type, and if there is any perceptible difference between the two it is only that the climbing Perle is even more vigorous and floriferous than the bush form.—*American Agriculturist*

To our Patrons:—In introducing "The New Climbing Rose Perle des Jardins," we are convinced from our experience with this rose, that it will prove of permanent value, both for indoor and outdoor cultivation. Its strong points are its climbing habit, vigorous growth, profusion and continuity of flowers, beautiful form, deep rich color, immense size and delicious tea fragrance. We can commend it to our patrons as the Best Yellow Climbing Rose of the present day. ~~We offer strong plants ready April 1st, 1891, $1.00 each, $10.00 per dozen~~.

John Henderson Co. Bayside, L. I., N. Y.

Dear Sir:—Referring to your climbing sport from "Perles des Jardins," which I have seen at various intervals during the last year at your place, I am pleased to say that I fully endorse all you claim for it, and consider it the most valuable acquisition that has been introduced in years. When in flower, the plants present a magnificent sight, loaded down with its beautiful yellow buds and flowers. Trusting you will meet with the success the rose deserves, I am, Sir,

Respectfully yours, John H. Taylor.

WHOLESALE TRADE LIST.

INVOICES

Of goods are sent with each shipment.

SUBSTITUTION.

In no case do we substitute unless so instructed by our customers, and we use our utmost care to keep our stock TRUE TO NAME, and grow nothing but strictly first-class stock in various sizes.

DELAYS.

These are sometimes unavoidable, but to prevent them all orders should be legibly written out and signed with post-office address, county and state, naming also the express or transportation company by which they are to be sent, and a copy of the order should in every case be kept by the sender.

LARGE SIZED PLANTS.

Of these we prepare large quantities after April 1st in four and five inch pots, prices for which we shall always be pleased to quote on application.

CASES AND PACKING.

We try to pack all orders the same day as received, unless otherwise instructed at the time.

No charge is made for cases, and every case is packed in good sound condition—forwarders will not receive them otherwise. To avoid extra expense to the buyers we will in future pack everything possible in tight boxes, as all the express companies now charge double rates for plants in open boxes.

DAMAGE IN TRANSIT.

We pack every order with the greatest care possible, and deliver free on board in Flushing. There our responsibility ceases, and the forwarders alone must be held responsible for delay or damage after leaving our care.

We Guarantee

Safe delivery of all Plants when sent by express, but all complaints must be made at once on receipt of goods. We will not hold to our guarantee if, a month after, from inattention or other causes, Plants have failed, and complaint is then made. Plants sent other than by express are entirely at the risk of the purchaser.

Terms.

Orders from new or unknown correspondents must be accompanied by cash or by satisfactory reference. We decline sending C. O. D., unless partial remittance is made as a guarantee of good faith.

REMITTANCES. All Money sent us by Post-Office Money Order, Bank Draft on any principal city, Express Money Order, or Cash in Registered Letter, is entirely at our risk, and we will send full value for it in all cases. Money should never be sent in ordinary letters without Registering. It is not safe, and, if lost we cannot be responsible for it.

With an experience of 20 years' special attention to the ***Queen of Flowers,*** we can furnish ***Our Strong and Reliable Roses*** at prices as low as charged by many growers for inferior plants. They are all grown on their own roots; no grafted or budded roses sold. We grow our roses in different sizes, giving the purchaser the opportunity of selecting large plants for immediate effect, or smaller plants at prices within the reach of all. We do not catalogue any poor varieties for the sake of making large lists.

Our Greenhouses.

In area our Greenhouses occupy Five Acres Solid in Glass. These Greenhouse Structures are heated by hot water and fitted up with every modern appliance, so that an even growing natural temperature can be maintained, and thus the most perfect health, strength and vigor is given to the plants. The Greenhouses may be reached in thirty minutes from New York, by the Long Island Rail Road, North Side Division (***35 Trains a day, both ways***), —From James Slip, East River, and foot of 34th St., East River, which connects with all the Rail Road and Car Lines in New York. ***We shall be pleased*** to see any one of our patrons, and invite an inspection of our stock at all times.

JOHN HENDERSON CO.

"WABAN."

THE SCARLET MERMET.

The Most Beautiful Rose of the Year.
